William's Fund

Raising money for Childhood Cancer Research since 2000.

We have no paid employees. All the money we raise goes directly to research in Oxford supervised by The William Dodd Research Fellow Dr Helen Townley.

This is our legacy to William and for the children of the future.
Childhood cancer is on the increase, it is the poor relative of cancer research,
which is why we aim to make a big difference.

Sign up for our news at www.williamsfund.co.uk

Our new website (created by Crisp Web Design) has news, videos and a recent interview with Dr Townley.

Join us on Facebook, LinkedIn and share us around!

Why not choose us as your Corporate Charity!

Thank you to all our sponsors and supporters

We are privileged to work with many local businesses and we ask you to take note of who they are... you may need them one day and we only work with reputable people, so feel free to ask us for more information on any of our sponsors. We do a lot of networking and can usually put you in touch with the right person for the job!

Your goody bags were put together with love! Those who contributed would love to speak to you, so please read their information, use their goodies... there is a good reason they were asked to contribute...

You may not realise it, but your WAGS will!!

We look forward to working with you in the future.

Thank You

We hope you had a brilliant day!
